CONCRETE ROOF TILE COLLECTIONS

Boral Roofing
Build something great™

Proudly Serving the Florida Market for over 60 Years

The Mastery of Manufacturing

We focus on the latest innovations in tile manufacturing. Our process is unique, providing pre-blended tile for the best roof aesthetic. With locations in Lake Wales, Okeechobee, and Pompano Beach we continue to maintain our commitment to our Florida customers.

A photograph of a roof sample covered in asphalt shingles. A red heat source is positioned above the roof, and a circular callout displays the attic temperature.

Asphalt Shingle

139°

attic temperature

A photograph of a roof sample covered in concrete tiles. A red heat source is positioned above the roof, and a circular callout displays the attic temperature.

Concrete Tile

94°

attic temperature

Why Tile?

NATURAL PROTECTION

Attic temperatures measured using identical heat sources simulating the sun's radiation comparing standard Boral concrete roof tile to a common asphalt shingle. The result is less heat in the attic and lower energy bills.

Material Matters.

BEAUTY MATTERS

Our concrete tiles have texture and substance, creating a true multidimensional look for your roof. Their natural colorways harmonize easily with other exterior building elements.

DURABILITY MATTERS

Boral engineered tile is specifically designed for new build and reroof, helping provide Floridians protection from the elements.

VALUE MATTERS

Boral stands behind the quality of our roof tile with a Fully Transferable, Non-Prorated Limited Lifetime Warranty.

SUSTAINABILITY MATTERS

Boral roof tile is locally made and sourced in Florida since 1958.

Color Matters.

As the market leader, we strive to enhance the curb appeal of your home. We continuously develop new colors to harmonize with the shifting architectural trends in Florida. We take pride in the color quality and blending we provide.

3 STYLES

Boral concrete roof tile easily harmonizes with all three dominant architectural styles in Florida.

TRADITIONAL

AMERICAN ADAPTATIONS OF REGIONAL HOME STYLES FROM OTHER TIME PERIODS OR AREAS OF THE WORLD. OFTEN MIXED REFERENCES.

MEDITERRANEAN
TUSCAN
WEST INDIES
FLORIDA OLD STYLE
FRENCH COUNTRY

TRANSITIONAL

PREFERS THE CLEAN LINES OF CONTEMPORARY ARCHITECTURE, BUT DRAWS HEAVILY ON DETAILS AND STYLES FROM TRADITIONAL ARCHITECTURE.

RANCH / SPLIT LEVEL
PRAIRIE STYLE
MIXED LOOKS

CONTEMPORARY

CHARACTERIZED BY A PREFERENCE FOR CLEAN LINES, OPEN CONCEPTS, DECORATION, AMPLE LIGHT SOURCES / LARGE WINDOWS, AND LACK OF ROUND FORMS.

MODERN
MID-CENTURY MODERN
CONTEMPORARY

SLATE | Dark Charcoal Blend

HIGH & MEDIUM TILE PROFILE COLLECTIONS

ESTATE

You will often find this tile gracing the roofs of Mediterranean inspired homes. This lower profile boasts easy versatility for any style building.

P. 13

GALENA

DESIGNER PRODUCT

Galena profile displays hand-crafted characteristics, providing an ideal complement to Spanish architecture. Bridging the Old World look of yesterday with the durability of today.

P. 21

LOW TILE PROFILE COLLECTIONS

SAXONY® 900

Slate

Beautiful design representative of styles found in England, Northern Europe and the US Eastern Seaboard. Versatile enough to accentuate any architectural style.

P. 25

Split Slate

Unique beveled edges precisely define each tile for a staggered appearance, while its distinctive slate texture accurately reproduces the appearance of its natural counterpart. Two 90° angled cuts on nose.

P. 29

PLANTATION

Slate Like

Unique beveled edges precisely define each tile for a staggered appearance, while its distinctive slate texture accurately reproduces the appearance of its natural counterpart. Two unique nose cuts 90° bevel and angled.

P. 33

BERMUDA

DESIGNER PRODUCT

Hand-crafted richness evokes the timeless allure of traditional flat tile commonly used throughout the Southeast and the Caribbean.

Boral® Saxony® 900 Tile

A superior tile **specifically designed for the Florida market**, to optimize installation, reduce costs and improve protection against the elements.

It is Boral Roofing's unyielding drive to develop and provide the industry and our customers with the most innovative tile roofing products, energy-saving solutions and advanced installation techniques.

FEATURES & BENEFITS

- Advanced design - lower profile & thicker mid-body
- Increased contact area, optimizing foam adhesive
- More efficient to install, saving labor cost
- Higher wind uplift resistance while using less foam than competitors*

Up to 25% Less Foam Required

BoralRoof.com - Imagine the Possibilities

Visualize

Picture your new roof with Boral Roofing's Inspiration house photo gallery on our website.

Order A Sample

Deciding on the perfect roof can be overwhelming. So, instead of wondering what color or style will work, order a sample and take the guesswork out of your decision. It's just another way Boral Roofing makes it easy to buy with confidence.

Architectural Tools

Our complete suite of architectural tools, including Arcat 3-Part Specs and CAD/BIM drawings, are available for download directly from our website.

Online Ordering

Manage your orders through My Boral, a simple online tool to track product orders in real time, all from the convenience of your computer, tablet or smartphone. Sign-up for e-mail alerts to notify you of your order status.

Limited Lifetime Warranty

As a brand you can trust, Boral Roofing offers one of the most comprehensive, fully transferable roofing warranties available on the market today.

Follow Us On Social Media

See what everyone loves about Boral Roofing and get inspired on: Facebook, Twitter, LinkedIn, YouTube, Houzz, Pinterest, Instagram.

Code Approval: Complies with all building codes including but not limited to ICC ESR-1647. Some approvals are regional and only apply to locally produced products; please contact Boral Roofing before transporting product across state lines. Specifically, products used in the Miami Dade County region of Florida require PREMIUM testing and recognition. All tiles are Class A fire rated.

Disclaimer: The printed colors shown in this brochure may vary from actual available tile colors. Before making a final selection, be sure to review actual tile samples and roof installations. Please contact your local sales office for further assistance. Inadvertent errors in this publication are subject to change without notice. No performance guarantee is offered or implied beyond that expressly indicated.

Efflorescence is a temporary surface condition which is common to all concrete products. The process is caused by the chemical nature of cement. This reaction can appear as an overall chalky white bloom (a softening of color) or in more concentrated patches. It is difficult to predict how long the effects of efflorescence will last. It depends on the type and amount of deposit as well as local weather conditions. The action of carbon dioxide and rainwater will gradually remove the deposit, in most cases, leaving the original color of the roof intact without further efflorescence occurring. It is superficial and in no way affects the quality or functional properties of the tile.

Installation: According to the Tile Roofing Institute loading guidelines, "To achieve a pleasant, random blend of color for your job, care should be taken upon loading to mix the tiles." (Source: 2015 Clay and Concrete Roof Tile Installation Manual). Please consult the Tile Roofing Institute (TRI) Installation guides for application recommendations.

ABOUT BORAL ROOFING

Boral Roofing LLC is a subsidiary of Boral USA and is the country's largest premium provider of complete roofing and re-roofing solutions for architects as well as commercial and residential builders. Boral Roofing operates manufacturing plants throughout the U.S.

ABOUT BORAL NORTH AMERICA

Headquartered in Roswell, Georgia, Boral North America is a leader in key construction materials and building products markets with operations across the USA, Canada, and Mexico. In 2017 Boral acquired Headwaters Incorporated, expanding Boral's product offering and manufacturing and distribution footprint across North America. In construction materials, Boral has a national footprint and industry-leading position in the processing and distribution of fly ash – a by-product of coal combustion.

In building products, Boral manufactures and supplies cladding, roof tiles, windows, and other light building products for residential and commercial markets nationally. Boral's manufactured stone veneer includes leading brands Cultured Stone® by Boral®, Boral Versetta Stone®, Eldorado Stone®, Dutch Quality Stone®, and StoneCraft Industries®. Boral's light building products portfolio includes Boral TruExterior® Siding & Trim – a pioneer of the innovative poly-ash category of exterior building products – as well as shutters, gable vents, mounting blocks, and tool systems. In roofing, Boral is a leading manufacturer of clay and concrete roof tiles, and also produces composite polymer and stone-coated metal roof tiles.

Boral also has a 50% share of the Meridian Brick joint venture, a leading clay and concrete brick manufacturer which was formed with Forterra Brick in 2016.
